**IGATE CLINICAL RESEARCH INTL PVT LTD  
DIAGNOSEARCH  
RECEIVES ACCREDITATION FROM  
COLLEGE OF AMERICAN PATHOLOGISTS**

Igate Clinical Research Intl Pvt Ltd DiagnoSearch, Mumbai Maharashtra, India, has been awarded an accreditation by the Commission on Laboratory Accreditation of the College of American Pathologists (CAP), based on the results of a recent on-site inspection.

The laboratory's director was advised of this national recognition and congratulated for the "excellence of the services being provided." Igate Clinical Research Intl Pvt Ltd DiagnoSearch is one of the five CAP-accredited laboratories in India.

The CAP Laboratory Accreditation Program, begun in the early 1960s, is recognized by the federal government as being equal to or more stringent than the government's own inspection program.

During the CAP accreditation process, inspectors examine the laboratory's records and quality control of procedures for the preceding two years. CAP inspectors also examine the entire staff's qualifications, the laboratory's equipment, facilities, safety program and record, as well as the overall management of the laboratory. This stringent inspection program is designed to specifically ensure the highest standard of care for the laboratory's patients.

The College of American Pathologists is a medical society that serves nearly 16,000 physician members and the laboratory community throughout the world. It is the world's largest association composed exclusively of pathologists and is widely considered the leader in laboratory quality assurance. The CAP is an advocate for high-quality and cost-effective medical care.
